ZOEDONE
Ohne Phosphor kein Gedanke
ZOEDONE
THE NEW DRINK
A restoring & stimulating but non-alcoholic
BEVERAGE

Letter from Dr Lucas, Bombay, Medical Dept. Author of the Elements of Indian Hygiene etc.
"I am of opinion that your invaluable aerated beverage Zoedone deserves the highest attention at the hands of the Indian public. It is not only a health giving drink but essentially, containing as it does the quadruple phosphates of Iron, Lime, Potash, and Soda, a health restoring drink par excellence, reviving and refreshing the vital powers. It would be a blessing indeed if we could see it introduced into hotels, restaurants, regimental messes and canteens. To weakly females in India it would decidedly tend not only to the amelioration of their own health, but that of their offspring, the future generations of men and women. I need scarcely allude to its indication as a remedial and dietetic agent in cases of malarial cachexy, phithis etc."

Letter from Geo. S. A. Ranking. M.A. M.D., Cantabe Surgeon, Indian Medical Department.
"I am of opinion that in Zoedone is to be found a complete solution of the problem which has long exercised the minds of the Medical profession in India, viz., the discovery of a beverage which shall assuage thirst, restore nervous waste, and while being palatable, be also non-alcoholic. It is my firm conviction that if Zoedone be introduced into India it will meet the requirements of those who wish to restore their nervous system without impairing their liver."

(Porter 'Stout')
Fig Brand
The only one recommended by Physician because of its strengthening and very nutritions qualities.
The results of its use in cases of debility induced by accidental causes are marvellous. This Stout becomes assimilated with the blood in a more efficacious manner than any solids do, and it thus fortifies exhausted organisms. In cases of maternity its use is of the highest importance, for which this brand is universally recommended by the most distinguished members of the Faculty.
Bass's Pale Ale
BULLDOG BRAND
Specially adapted for use in warm countries. The most delicately flavoured of all Ales manufactured by Messrs Bass & Co, put up by Messrs Read Bros., and bottled by their famous system.

NOTE—Beware of an imitation, being a copy of the Washington Morton registered label, which may be distinguished by the name Morton being changed to Mirton. The forgery of Parry & Co.'s signature is very badly done, but at a short distance it may easily pass as genuine. The general appearance of this forgery is so very similar to the genuine, that a careful examination is necessary to detect the fraud. Once the wine is tasted, the deception is quite apparent.

Mrs S. A. Allen's World's Hair Restorer
The Genuine only in Pink Paper Wrapper
It cannot fail to Restore Grey Hair to its youthful Colour, Gloss and Beauty
IT IS NOT A DYE
It ever proves itself the natural strengthener of the Human Hair.
THERE are two special qualities which determine and fix the superiority and excellence of Mrs S. A. Allen's World's Hair Restorer:—First—its prompt quick action, and the new growth, life, and vigour that it is sure to give to the hair, never failing by a few applications to Restore Grey or White Hair to its Youthful Colour, imparting to the hair a delightful aroma, fresh, delicate, and unchangeable in any climate. Second—its easy application without any previous preparation of the hair; without that sticky and disagreeable sulphur odour found and complained of in other preparations. It never stains the skin or linen. It retains the hair in any desired position, and is cooling and cleaning to the scalp.
Use no other Preparations with it, not even Oil or Pomade or Zylo-Balsamum
To Restore Grey Hair, Mrs. S. A. Allen's World's Hair Restorer is the best.
Because it is made from Choice Materials, and prepared with the utmost Care and Skill.
Because over Forty Years the Favourite Preparation, enjoying by far the Largest Sale, it must be the Best.
Because it Does Not Dye the Hair, but Strengthens it. Grey Hairs soon Disappear.
Because by its Gentle Tonic Action the Roots are strengthened—Now Life, and Hair Natural Colour.
Because the Soft and Silky Texture of Healthy Hair follows its use.
THE HAIR
Its Beauty can be Restored and Preserved.
"Beautiful Hair, Nature's Crown, Luxuriant and Beautiful Hair"
It cannot truthfully be said that at any age, period, or condition of life the Hair can or should be allowed to take care of itself, and requires no aid to stimulate and maintain its growth

VALVOLINE
Lubricating Oil
Engineers and other scientific men who have thoroughly tested this Mineral Lubricator, are unanimous in pronouncing it 'superior to all others.' Five parts are equal to eight of the best Sperm Oil (considered until now the best Lubricant) which, taken in connection with the fact that it never gums or oxidises makes it the cheapest lubricant in the market. It took the only prize at the Centennial Exhibition and is the only Cylinder Oil used in the British Navy. There can be no better proofs of its excellence than these.
The Cosmos, Rio Parana etc, use no other oil, and it is the only lubricant used in the Argentine Navy.
A new lot has just been received, and arrangements have been made with the manufacturers to keep up a continual supply, thus avoiding the possibility of again running short.
VALVOLINE for consumption in the River Plate, can only be obtained from the undersigned, because the manufacturers will not sell to merchants or Commission Agents, thus completely protecting consumers from being imposed on with falsification. These are already being attempted.

ITALO RAILWAY.

Of all the Bills for Railways presented this year before the Legislature, the one by Messrs. J. Lloyd and Co., from San Nicolas to Junin, with extension to Italo, passing through the rich camps of Lincoln and the magnificent plains of Gainza, claims most attention.

It will open not only a new country to us, but almost a new province, and bring us within easy reach of the far-famed Venado Tuerto, the well-peopled district of Melincue, the rolling camps of Cernadas and the innumerable young estancias that, since the conquest of the Rio Negro territory by General Roca, have passed from the Indians, Messrs. Pinzen and Co., into the hands of merchants, lawyers, brokers, editors and dentists. It is hardly an exaggeration to say that in those immense plains that stretch out in the beautiful west, there is ample room for the whole stock of horned cattle that the whole province of Buenos Aires boasts of.

One great feature in favour of this new line is that it will compete with no existing railway nor with our rivers; on the contrary, it will tend to facilitate all. It will cross the Western Railway at Pergamino, and may be considered a feeder to that line, whilst it will bring to the banks of the river Parana the teeming produce of the far west.

The proposed scheme is now being discussed by the Board of Directors of the Western Railway, and will be despatched by that Board favourably, as the Directors are fully aware of its importance to the country. We believe that a 7 per cent. guarantee will be asked for, not because the promoters have the slightest idea the railway will not pay, but simply to prove to the shareholders that the representatives of the Province have confidence in its covering the guarantee, and will do so the first year when open to traffic.

The line will be completed to Junin say in two years, but will be opened to the public in sections, which will be doubly convenient to the farmers and estancieros of the districts through which it passes, and an immense gain to the port of San Nicolas, whose trade it will so much foment.

Dr Rocha, our new Governor, could not possibly make a more brilliant debut before the investing public in the English market than by inaugurating his administration with a proposal such as the opening up of our far west camps, by means of this railway. Within the last year the lands of Gainza and Italo have come most prominetly before the public, and these splendid virgin land are now owned by sheepfarmers of Giles and Mercedes: by merchants resident in Liverpool, woollen manufacturers in France and Germany, and bankers and capitalists in London. Some of the new proprietors are, whilst we write, driving out cattle to these former Indian rodeos, and, when it is known that this new railway is carried out, hundreds who bought these lands on speculation will, instead of holding them to resell, set about to stock and fence them as far as their means will allow.

Governor Rocha, in helping this enterprize, proves the great interest he takes in the material prosperity of his province, and no man in B. Ayres better understands the high import of this scheme than his talented Minister of Hacienda, Mr Uriburu, whose long connection with our market affords him the most invaluable experience for the post which he fills. The Gainza and Italo Railway will breed progress; create prosperity; people virgin camps of the most inexhaustible fertility, and spread happy homesteads over wild frontier plains which, due to the genius of Roca, are now called estancias, and with the aid and assistance of Rocha will, in a few years, be smiling sheepfarms.

PROVINCIAL BUDGET FOR 1882

Mr. Uriburu, the talented Finance Minister of the Province, is the first man holding the portfolio who has ever strictly complied with the Constitution, in presenting the Budget to the Chambers within a month after they meet. We warmly congratulate him on the fact, which is indeed a new departure in provincial affairs.

The following is Governor Roach's Message to the Chambers when laying the Budget before them—

B. Ayres, May 31st, 1881.

The Executive to the Legislature,

In conformity with Art. 142 of the Constitution, I lay before you in the month of May the Budget for 1882. I may remind you that no new administration has ever before been able to comply with this provision of the Law. Extraordinary efforts had to be made to do so, as 25 days were barely sufficient for us to get into the administrative harness, all the more because I had also to attend to sundry important questions which required prompt solution. In addition, the Budget had to be framed to suit the new organization of the province, owing to the cession to the Nation of this city, so long its administrative and economical centre. The task was a hard one, but it is done, and you can easily remedy any defects when studying the measure. I beg you, therefore, to take this first and most important of Provincial measures into consideration without injurious delay.

A settled government cannot be carried on without having the estimates of receipts and expenditure before it in good time, limiting the action of the Governor to supplying the legitimate wants of the governed, preventing capricious and sometimes criminal waste of public money, always the ruin of peoples. Our history in this respect is indeed a sad one: so let us shun past irregularities and, true to the Constitution, give definite settlement to our institutions.

Can be used with COLD WATER. Sole Agents MOORE & TUDOR. Maypu 95 and 127. Beware of imitations and falsification

Hitherto only legislative, judicial and administrative expenses figured in the Budget: nothing for railways, telegraphs, banks, &c, each of such establishments having its own budget, and that unity which shows at a glance the financial state of a country was sacrificed, to the injury of the country at home and abroad, both resources and expenditure being alike underestimated. I have partly corrected this abuse by bringing the partial budgets into the general one. Want of time prevented me including also the 78 Municipal budgets, which would have completed the statement of the exact financial condition of the province. Next year I hope to do so, if you sanction my proposal that all the estimates must be printed in a single book.

The financial year began on the 1st inst. and the Budget then sanctioned is working well enough, in spite of some deficiencies which somewhat embarrass the Executive. Nothing was voted for Public Works or extra outlay under special laws, and I trust you will correct this and vote what you think proper for those purposes, and so complete the estimated ways and means in the Budget now in force.

The Budget for 1882 is based on the province being now separated from its former capital. The number of employees has been reduced so far as necessary, not to press too heavily on the Treasury.

The Judicial Powers cannot be completely reorganized until Congress provides for the administration of Justice in the capital of the Nation, and you select a new capital for the province; meanwhile I confine myself to the wants of Justice in the camp sections, leaving you to provide by a special law for the administration of Justice in the future capital. I have devoted special thought to the Camp Police: This service is the most costly item of all, but it is also the most necessary, to guarantee order, life and property. Its present 'personel' is barely sufficient for the most ordinary duties, and I would ask you to increase it, if we had the means, I can meanwhile assure you that Buenos Aires has never spent more on its Police than at present, nor has the latter ever been in a greater state of efficiency than now.

In losing the revenue derived from the city, the 'Rentas' office had to be organised on a reduced scale. Formerly it had five subordinate offices: now there are only as many desks, all in one office. One 'Colecturia' has been abolished, and one Inspector added, to see practically if the 'Colecturias' can be done away with without prejudice to the Revenue. You shall be duly informed of the result, so that you can take the necessary steps.

An indispensable increase in the 'personel' of the Accountant General's office has been made, so that an exact balance of the financial situation can at any time be struck at a day's notice.

The sum set down for the service of the Public Debt—$38,000,000 m|c—will attract your attention. With it I hope to consolidate the enormous debt due to the Provincial Bank—$267,671,303 m|c. The first step of an honourable Government is to pay its debts; but apart from this axiom of good government, the Bank now requires all its resources to convert its notes, rid the country of forced currency, and secure its own position in the future.

I will spare no sacrifice within my attributes to secure this, so essential to the present and future welfare of the province. In a few days I will lay before you my plan for arranging the debt to the Bank.

As you will see in the Budget, the General Expenditure of the Province will reach $141,796,702, as follows:—

Administration	$ 86,866,074
State Establishments	42,359,560
Education	12,571,068
The receipts being estimated at.....	$141,796,702
General Taxes	$ 87,400,000
State Establishments..	42,352,560
School Fund.....	12,571,068
	$142,330,628

Showing a surplus of $533,926.

To estimate the Receipts, all the Tax Laws had to be altered in the form I herewith submit to you. The city has, of course, been excluded from the calculation. With the Spirits and Tobacco Tax abolished, the expenses for new Provincial buildings, and the consolidation of the debt to the Bank, it was no easy task to balance the new expenses with the old taxes. New ones had to be imposed.

As you will see, I have hit on the easiest way to arrive at an equilibrium: it will only be a temporary expedient, but it will give time for our financial condition to improve with increased prosperity, the greater value of our currency, and other elements afforded us by peace, immigration, and our fertile soil.

I conclude with assuring you that I shall always try to avoid superfluous expenses: but as regards railways, roads, bridges, telegraphs and other reproductive works, I will go the full length of the financial resources of the province. I will strive to strengthen the Bank, consolidate the Floating Debt and fight forced currency till I conquer it. It may not be the most arduous task before my Government, but I count on your aid and that of Divine Providence, to give me strength to perform it.

DARDO ROCHA,
F. Uriburu,
C. D'Amico.

THE DOURO OFF LISBON

Sir

Enclosed I beg to hand you a copy of a testimonial given by the passengers to Capt. Kemp, hoping that you will find pleasure in publishing it in your leading paper.

Capt. Kemp has been really most kind and attentive to us in every way, and our trip has been a most agreeable one, and the testimonial does not say a word too much; but for a very strong headwind and sea which we encountered after leaving St. Vincent we would have been here yesterday.

With' memorias' to all our mutual friends on the Bolsa.

I remain
Yours very sincerely
Subscriber Afloat.

Lisbon, April 30th.

The undersigned passengers per Douro from Buenos Ayres to Antwerp have great satisfaction in expressing to Capt. Kemp their high esteem for his unceasing zeal in the management of the ship, as well as for his many attentions to them during the voyage, and they avail themselves of this opportunity, before parting, of wishing him and his gallant officers every happinesa and prosperity

EDITOR'S TABLE

The figure 28 for the patacon was seen for the last time yesterday on the black board: 27 is the figure now, but with all the gold lying in Europe for us, 25 will be the mark before the farmers come to town for shears and twine.

Yesterday was a great day for the Plate: the news of the launching of the Railway Roca loan set all our mercantile subscribers wild with excitement, 216 millions pats subscribed, and only 12 millions asked, clear it is we have to our credit in Europe, awaiting investment in the Plate, 212 millions pats gold.

20,000 pats gold won yesterday in the Montevidean Lottery by an old *Standard* subscriber. Anglo Argentinos mark again for your flag.

The Royal Mail steamer Mondego arrived at Montevideo yesterday, and will be here to-morrow. She has some splendid blood-stock on board. Her mails will be up this morning.

We feel much pleasure in announcing the arrival of Fathers Nilus and Kent Stone, of the Passionist Order, to join Father Martin's community at the Once de Setiembre, and we cordially welcome them to the River Plate. Both clergymen are from the United States, where Father Kent Stone enjoys a high literary fame. The Church of San Roque, which has been repaired and painted from top to bottom, and is now one of the nicest in the city, will be solemnly re-opened on Sunday next at 12 o'clock, when there will be solemn High Mass and Sermon, and in the evening, at 7½ p.m., Devotions and Benediction.

Governor Roach's Message to the Chambers on the Budget for next year will be found in another column. It is an able document, but 141 millions seems an awfully big sum for governing this province, without the city of Buenos Ayres. The camp tax-payers may well groan in spirit and turn their eyes skyward.

There were a good many important rumours afloat yesterday respecting affairs in Banda Oriental. Latorre's party are said to be moving, and there is likely to be stirring work over the water before long.

There are over 20 applications before the National Government for opening a public market on the Paseo Julio. It must be a lucrative business.

It rained heavily on Tuesday night—a business-like downpour that left the streets and suburban roads in a nice mess yesterday morning, and the ambient was as cold, damp and uncomfortable as it might be on Ireland's Eye on a November day. We are in for the winter now, without anything to keep us warm, as the events of last year did so effectually. However, we'd sooner freeze than get into hot water like that again.

Ha! Haw! Two escribanos have been named censors of the Press at Montevideo, and they make an 'auto de fe' of every Buenos Ayres paper they can lay hands on; only the foreign Ministers and Consuls are allowed to receive their papers untouched. The escribanos have awful work of it, and have already used up several editions of Spanish and foreign dictionaries. This sort of work cannot possibly last very long.

Another Comet. Dr Gould telegraphs from Cordoba that the comet now seen in the South-Western heavens at night is that of 1807, and it will reach its perihilion on the 18th, the anniversay of 'King making' Waterloo. The Minister of Instruction has wired to Dr. Gould to send down full particulars when he shall have completed his scrutiny of the celestial visitor, which, like all comets, will be looked on by the 'vulgus' as a harbinger of all kinds of woes for this terrestrial sphere.

The Finance Minister has allowed in free of import duty a splendid wind-mill for the Chubut Colony, consigned to Mr. Edward Casey.

The Minister of the Interior has consented to invest 930 pats. in a carriage for the employees of the Penitentiary, who, when it rains, have to wade up to their chins in mud in getting to or from the establishment. The vehicle, we believe, will be of that kind known as a covered tilbury, but which in our youthful days used to be styled a 'Quaker's car.'

Chivilcoy is now going 'off its head' about a cold water doctor who is working wonders there in curing everything, from a toothache to hereditary gout. The funniest thing about this 'agua fria' man is that he never asks a fee, but allows his patients to drop on a silver tray on the table whatever offering they like to make him: he is making a rapid fortune and has moved into a grand new house. This medical wonder is young, goodlooking, has the manners of a Chesterfield, and, as far as we know, is unmarried.

Oh! The French have taken it into their heads to beat old England for once on her own element by building a steamer twice the size of the Great Eastern, viz, 1,250 feet long, with two engines of 50,000 horse power each. The Great Eastern has proved such a white elephant that our Gallic neighbours dont show much wisdom in wishing to secure a still whiter one.

The returns of the British Hospital for May show 32 patients on 1st, 27 entered, 21 discharged and 31 in house to begin June with.

The Rector of the University has proposed to Government a retiring pension for Dr. Juan Mariano Larsen. It is no exaggeration to say that Doctor Larsen is the first scholar in the country, his acquirements ranging over a sphere that Feilows of Oxford, Trinity or Cambridge might well envy; and the pension now asked for him is but a very inadequate recognition of the merits of a man who has educated many of the greatest men in the country, and yet has probably forgotten far more than they have ever learned.

Drs. U. Frias and V. Saravia receive 2,000 patacons each, for having successfully carried out the National Intervention in Jujuy last year. The job was a long and difficult one, and is certainly not overpaid.

Sr. Ojeda, Postmaster-General, and Dr. Zorilla, the President's Secretary, were the first men in town to see the new comet. For several nights past they have been cocked up on the roof of the Post Office, armed with a telescope as long as the great gun of Athlone, and have had splendid views of the heavenly wanderer, which is dashing towards us at a speed to which that of lightning, well lubricated with Bennett's 'valvoline,' is but a snail's pace Since penning the foregoing, we have learned on the best authority that Mr. Petty, of the Royal Mail Company, and a leading British merchant, were the first to see the comet at 5 a.m. of the same day that Messrs. Ojeda and Zorilla saw it at 10 p.m.

PETTY'S COMET.

B. Aires, May 31st, 1881

To the Editor of the *Standard*

Dear Sir

A very pretty little comet has made its appearance recently. It can be seen shortly after sunset, and in rather close proximity to the point at where the sun sinks below our horizon,

Can you not tell us something about it?

Yours truly
W. D. Junor.

The Bolsa opened this morning with radiant energy and sonorous 'vibrations'; the liquidation, the heaviest ever witnessed in this market, had closed without the default of a single share or patacon, but the gold market betrayed rather revolution than reaction, and the dissembling monarchs of the ring—the bulls—shook in their shoes until the bell rang the knell of parting day, and they were comforted that still the figure of 28 appeared on the black board. Before, however, the brokers had time to run round for a mouthful of lunch there were Huguenots offering gold cash at 28, and all the surroundings of a stampede were unmistakeable in the hall. At last there seemed a rent in the 'curso forsoso' curtain; people who for months past groped their way in the dark at last caught glimpse of a ray of light; gold at 27 seemed now possible, and there were many who, convinced that the Provincial Government is determined to abolish 'forced currency consider that gold at 26 is dear.

As is ever the case when any great market change is noticed, the Germans are the first to be named. It was the Germans to-day, they all said who turned everything, they are now selling on time so cheap that there was no hope for the price cash The Germans are now doing what they should have done a month ago, namely pass their exchange for next clip at 44⅞ and sell their gold at 28.90. To-day the operation is impossible, but still the very heavy sales for succeed ng months are all for account of the wool on the sheep's back, and this year the season has proved so favorable we shall have such a clip the like of which was never before known in the Plate.

Gold opened with a hop at 28.30, it dropped gently to 28.05, and closed at 28.10; 129,900 pats sold cash. For the end of June over a million sold, beginning at 28.05 down down to 27.85, and the bulls closed the price for that date with satanic grins at 27.90. For July trifles sold at 27.70.

Cedulas were bought strongly on time, evidently to place money; prices for 30th opened at 97½ and closed at 97¾.

National Bank Shares not a single sale; holders who are out of the pressure of the liquidation indignantly refuse to sell a share at present prices. The shares par gold is the banner of some of the strongest; whoever wanted to buy should have bought yesterday.

Nat. Gov. bills were discounted yesterday at ½ per cent per annum 100,000 $f. This is indeed a triumph for the credit of the Government. This time twelvemonths these bills were offering at 36 per cent per annum. The last year has proved a century in the fortunes of the Plate.

Great complaint was made at the arrest yesterday of about a dozen of brokers' coachmen with horses, harness and tilburies. It seems they were walked off to the 'comisarios' and a fine of 50 m|c imposed on every driver save the Government brokers. This affair is as unpleasant as discreditable, and we hope to see the fines refunded, and the rule which gave rise to it abolished, as it is impossible to ask the coachman to sit the whole day on his coach, he certainly should be allowed to stretch his legs on the side walk, and stand beside his horse. We had hoped that we were over all such Czarism in the Plate; and what is most dreadful is that the fine in question is imposed by the Municipality. Lord Mayor Alvear will, we trust, look at the matter in a right light. The affair has been brought before the Camara Syndical, and ergo will be reformed.

Through the kind attention of Mr Cooper, the talented manager of the Southern Railway, we now receive daily telegrams from the south of the weather as there is so much money now going into land, and cattle in the South, and our subscription list down there has quadrupled, we have no doubt these weather telegrams daily will possess for our city readers interest.

Mr Petty, the renowned Royal Mail pilot, was the first to see the new Comet, he saw it a week ago at 5 a.m., on the way from Colonia, we therefore term it Petty's comet. On the Bolsa the more superstitious brokers believe that it means the complete defeat of 'curso forsoso.'

The London papers of 5th May give the following—

"The failure is announced of Messrs Pfau & Menke, of Bremen, and of Messrs Baare & Stolte, of Amsterdam.

"Ernesta (barque) from Buenos Aires for Falmouth, has put into St Michaels with rudderhead sprung and loss of some sails."

The sales at the ring were—

Mr Dimet of the *Nacional* was again the hero of the hour; he entered the Bolsa at 3 o'clock with the glowing news that the Argentine Railway Roca Loan had been launched and subscribed for 18 times over. That the Argentines who only asked for a loan of twelve millions patacons gold had 216 millions gold dollars subscribed. Such splendid news took the very breath from the men in the liquidation room; gold fell to 27.70 for the end of the month, and National Bank Shares marched up to 96. Cedulas and National Bonds of course go to par.

The excitement baffles all effort at description; men who never believed anything before now admit that they see something. Few seemed to know the quotation of the loan, some said 88-90, but one party held the news that 92 is the figure.

How much this country has advanced since the Public Works Loan, not even one half of which was subscribed for; our readers can now well see. This triumphant loan business places this country in the same category as the United States. The whole Bolsa in chorus congratulates Gen. Roca on this magnificent success. Never before has the country won such a victory, and whoever now doubts that the Nat. Government will abolish forced currency must look at things not as they are but as they *ones were.*

The excitement caused by such glorious news rendered people unable to talk of general business, and men who came on 'Change to talk of hides, exchange and wool, spent the whole time discussing the splendid future opening to this country with such a burst of foreign capital for the Plate.

Three steamers of Lamport and Holt entered to-day and two sailed. Ptolemy, Muskelyne and Donati, whilst the Euclid and Bessel sailed.

The Pascal is still in Montevideo owing to break in her machinery, she sails on 5th for New York, passengers can go down to her on Saturday.

The Thales left Rosario this morning, she will be here on Friday, she sails on 6th direct with full cargo for Antwerp and Liverpool.

A well known and prominent Anglo Porteno drew the big prize, 20,000 gold dollars, in Montevideo to-day; more 'Standard' luck.

Nat. Bank shares very active, and strong buyers taking up everything offered, for end of month prices closed buyers at 96 200 shares sold; 1000 Nat. Bonds bought at 76, sold to-day at 97.

Gold, 30,000 pats for end of month sold at 27.70.

The Congo has been placed in quarantine one sick man on board, she has 400 passengers.

Exchange drawers 5.20, Paris 49¼-⅜ London, nothing done, few takers.

Johnson Gaibisso & Co. chartered the Germ. brigantine Cathrine to load salted hides in port for Channel f.o. at 30s and 5 o/o.

The Sales at afterhours were—

For cash 75,000 at 28.05-28.-27.90
For June 4th 65,000 27.85-80
For June 30th 450,000 27.80-75-70, firm.

National Bank Shares—
For cash 500 shares at 95
For June 30th 1,200 shares at 95-¼, firm.
" 200 shares 96, buyers.

Cedulas A—
For June 30th 30,000 97½, buyers.

Next to nothing was done at the Plaza Once this morning, owing to the rain. At the South Market nothing whatever done. The sellers were all there, but not a single buyer.

Our Boca correspondent gives the following: The Nova-Scotian barque Georgie, Captain Tooker, and Norw. barque Oskel Cristian both entered yesterday. The Celina, Captain Hodgdon, is passing out with hides for the U States.

The last number of the *Economist* received by the mail gives the following about the Argentine Railway Loan:—

"It is stated that on March 24th the Argentine Government concluded a loan for $12,000,000 with the Comptoir d'Escompte de Paris, the Banque de Paris et des Pays Bas, and Messrs L Cohen & Co., of Antwerp. The loan is issued at 82, and is to be free of commission charges. The Legislature has also passed the Bill authorising the Government to conclude a loan of $1,500,000 for the construction of the harbour works at Riachuelo."

From Paris we have the following:—

"The French Match Co., to which a monopoly is conceded, has published a statement for the year 1880. Down to the year 1878 each year left a deficit, and the total loss then amounted to f.14,331,484. The year 1879 just balanced receipts and expenditure, and 1880 has left a profit of f.2,700,108, reducing the aggregate deficit to f.11,631,376. The sales, however, fell from 26,924 millions of matches in 1879 to 24,125 millions in 1880, and although a saving may have been effected by reducing the commission allowed to dealers and the working expenses, the profit shown is in great part fictitious, and is obtained on paper by charging, for the first time, a part of the royalty of f.16,930,000 paid annually to the State on the matches remaining in stock.

"The liquidators of the Immobiliere Co. announce the following dividends from assets realised in 1880:—f 15 4c per three per cent bonds; f.16 95c per bond drawn for redemption, and not paid off; f.5 93c per six per cent bonds of the Ports of Marseilles Co.; and payment of a sum of f.2,170,634 to the Credit Mobilier Co. on account of its claim.

"At the general meeting of the Banque de Paris et des Pays Bas, to be held on the 7th May, the Board will propose a dividend of f.60, or 12 per cent, the same as paid for the year 1879."

Messrs. Oostendorp & Co., under date May 3rd, report the following:—

Hides—
Imports, 4 900 dry R. Plate hides
30,400 salted do
6,400 dry horse hides
Stock, 97,000 hides, viz—
33,800 dry R. Plate hides
44,300 salted do
5,100 salted Rio Grande hides
1,800 miscellaneous
12,000 horse hides.

The demand has been limited as usually the case at this time of the year; prices for salted hides on spot show no noteworthy change, but on delivery 1,000 B. Aires ox were disposed of, as per particulars hereafter with a concession of f.1.

Dry hides are very neglected and must be quoted f.3-5 lower.

Dry horse hides are moving off slowly at last rates.

Sales sum up to—
1,800 dry R. Plate hides
8,100 salted do
1,100 salted Rio Grande hides
2,000 miscellaneous.

Dry B. Aires mat. ox, 18-15½ kilos of fair quality at f.137-142

Dry B. Aires do do of secondary quality at f.132-137

Dry B. Aires mat. cows, 10-11 kilos, of fair quality at f.125-130

On delivery—
1,000 B. Aires saladero ox, 64½ lbs. sp., expected per str. Leibnitz, sold at f.75 for 15-25 kilos, f.82 for 25-32 kilos, and f.78 for 32-40 k.

Floating cargoes—
Continue neglected in England, and no sales have been mentioned there.

In Liverpool, the market rules quiet and the most noteworthy transactions have been:—1,000 old season Guaviyu ox, 63½ lb., at 6¾d. tare 5 lbs., besides about 2,000 Rio Grande mostly out of second hands at rather low figures.

In Bristol 4,900 old season heavy ox, Liebig s, sold at 6⅞l.

Salted horse hides are firm and sales in Liverpool include about 3,000 on spot, besides 4,000 'to arrive' from Havre.

Tallow—
634 pipes and 200 half-pipes found takers at f.88½ besides 3 pipes and 24 half-pipes mutton at f.86½, which leaves no available stock. The quotations are nominally:—f.88-89 for beef and f.86½-87 for mutton.

In Liverpool, River Plate tallow has been very neglected, buyers finding North American more advantageous.

Wool—
Imports, 7,400 bales R. Plate
Stock, 20,600 bales B. Aires
6,400 bales Montevideo
6,400 bales miscellaneous.

The chief feature of last fortnight have been the second series of our auctions, which lasted from the 20th till 29th April, and the 9 sittings held gave following result—

Offered.		Sold.	
16,605 bales	Buenos Aires	11,048 bales.	
2,719	Montevideo	1,396	
107	Entre Rios	85	
892	Miscellaneous	301	
20,323 bales.		12,830 bales.	

The sales came off in presence of a good attendance of buyers who, after showing much hesitation at the first sitting, operated a few days with a fair animation at the decline established by private contract, but during the second week a quieter tone set in, prices gave way 6c further and at close the reduction on January rates was—

15c for Montevideo wools
15c for B. Aires, River and lambs' wools
10c for good to fine B. Aires
5c for superior do

Quotations for B. Aires invoices averaging a 1st, viz:—

F.1.85-1.95 for superior wools, 35-36 o/o
F.1.60-1.70 for good to fair, 32-34 o/o
F.1.45-1.47½ for good average, 30 o/o
F.1.40 for good average lambs', 30 o/o
Fair to good Montevideo shipments averaging a 2d, 40 o/o yield, are worth about f.1.95.

Scoured wools stand in at fs 4.75-85 for fair, fs.5 to 5.20c. for good, and fs.5.35 to 40c. for superior 1st [washing and all expenses excluded].

En el sorteo practicado por el Directorio en los dias 27 y 28 para el rescate de cedulas de las Series A B C y D han resultado rescatados a la par las cedulas que siguen:—

Por orden del Sr Juez de Primera Instancia
El Jueves 9 de Junio
A la una del dia

Venderemos por orden del Sr Juez de 1ra Instancia Dr D Miguel Noguera y como perteneciente a la testamentaria de D Juan Labeyrie, dos majadas de ovejas mestizas de Rambouillet de clase superior segun informes que nos son transmitidos.

Las majadas se encuentran una en el campo del Sr Don Zenon Calderon y la otra en la graseria y Saladero del finado. La primera esta tasada en la suma de $30 cada una siendo la base de venta las ⅔ partes es decir $20. Las segundas (las que estan en la graseria) estan tasadas en $40 m/c cada una siendo su base de venta las ⅔ partes que son $27.

Tanto unas como otras, son ovejas superiores y su tasacion baja responde unicamente al proposito de llevar concurrencia.

Oportunamente daremos la señal de las majadas y otros datos.

Cien leguas de campo, en lotes desde 2 hasta el numero que se desee.

Importantisimo, leer esto

La practica nos ha enseñado, como asi mismo las indicaciones de nuestra amistosa clientela, que no debe lanzarse a remate ninguna propiedad de cuya bondad de titulos no tenga la casa confianza y seguridad absoluta, por cuya razon hemos trabajado mas de dos meses hasta reunir toda la documentacion necesaria para presentar en venta esta zona importante de tierra, sin que los interesados tengan necesidad a pedir datos.

Hemos impreso un folleto, que contiene; 1º El plano de Santa Fe y su vecina Santiago del Estero. 2º El informe del Gobernador de la Provincia, declarando "ser propiedad de los Canepa el campo a venderse, acompañando copia legalizada de la ley que autorizo la venta y reconociendoles el derecho a su enagnacion. 3º Carta del Señor Obligado (que ha recorrido los campos durante anos) determinando su ubicacion, buena calidad, ventajas de su adquisicion, condiciones, etc. etc. 4º Planos del campo a venderse, con determinacion de lotes y la ubicacion de todas las importantes colonias con que se avecinan. 5º Nomina de los linderos y establecimientes importantes inmediatos. 6º Informe escrito del estudio hecho de todos los documentos y titulos por el acreditado escribano Sr. D. Victoriano Cabral, que los declara inmejorables: y finalmente todo lo pertinente al conocimiento de lo que debe adquirirse.

Este folleto, ass como las entradas para el lunch, se entregaran en nuestra casa a las personas que se dignen venir a solicitarlo.

Pormenores

Estos campos distan solo 5 leguas de las colonias Sunchales y Espin [suize] y 7 o 10 de las estancias de Escalada, Ramayon, Coronel Obligado y hermano, Dr Feiro Palacios, Banco de Londres, Coronel Lacueva, Coronel Jabson. Lindan a mas con los Sra W Paste y Ca, Dr Lawsen, Meyer, Ozeira, Duchiwitz, Altzelt, Napp, Loisseau, Bonorme, Newton, Mulhall y otros, que adquieren en la misma forma hacen diez anos.

La traza del ferro carril de Santa Fe a Santiago, cruza estos campos y se radicara una o dos estaciones en ellas.

Con la base fijada, no se habran puesto en venta campos mas baratos y si se habran adquirido jamas mejores como calidad, pues el Sr Coronel Obligado dice en su informe que son SUPERIORES a los del Sud de Cordoba y a los del Departamento del Rosario.

Hay campo linderos, que se han vendido (y mostraremos el certificado) a 3000 $fts. la legua.

En la colonia Espin, donde existen mas de 150 familias fundada por el Sr Benitez, se venden las concesiones a 200 $fts de solo 20 cuadras, luego la legua ha producido ya mil onzas de oro, en 80 concesiones.

Los campos estan mensurados judicialmente perfectamente amojonados con grandes postes de nandubay.

Hoy dia, la casa bancaria de los Sra Murrieta en Londres, esta recibiendo los campos del Chaco, del Gobierno de Santa Fe, en pago del empresitito a razon de 1500 $f. por legua, y estos son superiores y mas cerca de la capital.

Para terminar: la familia Canepa, es propietaria en el Rosario y esto redobla la garantia.

Por informes, folletos, planos etc, a nuestra casa San Martin 51.

Campo Superior
Perteneciente a la testamentaria de Don PEDRO N TRANT
Tasacion $200,000 m/c
Base de Venta $133,333 m/c
En nuestra casa San Martin 51
El Miercoles 15 de Junio
A las 3 en punto

Procederemos a vender por orden del Sr Juez de la 1ra Instancia Dr D Virgilio M Tedin y como perteneciente a la testamentaria arr.ba espresada y siempre que la oferta escida de las dos terceras partes de la tasacion recientemente practicada, las dos leguas de campo situadas en el cuartel 4º del Partido de Lincoln.

Este campo se encuentra poblado con ganado vacuno hasta hace poco tiempo y el ha sido descupado recientemente,

Siendo muy conocido y apreciado ya de muchos hacendados y lo ventajoso que son los campos de ese Partido, escusamos detalle, por otra parte, lo bajo del precio de la venta, es muy halagador.

LINCOLN
Sobre Establecimientos valiosos,
Campo reputado superior.

Base de venta $120,000 m|c. por legua.
En nuestra casa
51—SAN MARTIN—51
El Miercoles 22 de Junio
A las 3 en punto de la tarde,

Por orden de quien pertenezca, un terreno de estancia situado en el Partido de Lincoln, campo reconocido como superior por sus excelentes pastos, sus buenas aguadas y esñadas.

El campo mide una legua y media de frente por 2 de fondo, y esta rodeado por los campos del Sr. Don Antonio Lopez, Duggan, Castillo, Costa y otros.

Su base de venta es sumamente baja, y como para despertar la codicia en los especuladores.

Los titulos son superiores. Para verlos, como asi mismo para conocer la ubicacion del campo en el plano respectivo que tenemos, ocurrir a nuestra casa San Martin 51.

NOTA—Este campo tiene una deuda al Gobierno de la Provincia en 7 letras de $23,000 m|c cada una, que el comprador podra tomar a su cargo si le conviniese.

ON JULY 10th
At 2 p.m.

I shall auction, by order of the proprietor, this splendid camp, situated in the Department of Villaguay, on the borders of the Department of Uruguay, 14 leagues from the capital of the Province and 5 or 6 from the town of Villaguay. It is surrounded by important establishments such as those of Don Aurelio Jorge, D Eduardo Almagro, D Teofilo de Urquiza and the heirs of Benitez. The pasture is of the first quality suitable alike for sheep and cattle or for agriculture, the greater part being black vegetable earth, 50-60 centimetres in depth.

Persons interested in seeing the land can take the bus which leaves Uruguay for Villaguay on Mondays and Thursdays, and will leave them at the estancia of Don Teofilo de Urquiza, where they will find a person to shew them the land.

Advantageous conditions of sale

The sale will commence at the upset price of $f4 or $100 m/c per square of 150 varas, payable as follows—¼th part on signing the deeds, and the remainder in instalments with interest at 1 o/o monthly at 1, 2 and 3 years. A better opportunity cannot be offered to acquire a good piece of land. In this Province $200 per annum is paid per square of land for agricultur and we offer to sell the property for the half of what is paid here for rent, bearing in mind that this land is admirably situated for agriculture on a large scale not only by the fertility of the soil but also for the facility of river transport. The title deeds, which are in the best order, will be delivered GRATIS to the buyers.

The auction will take place in my office, San Martin 90, on the day and date named. For more particulars apply at my office.

Note—Our object in offering these lands on such convenient terms is to attract a population of agriculturists and labourers to these very fertile and productive lands.

LOSS OF THE DOTEREL

News of a terrible disaster to an English man-of-war has just been received from Montevideo. The Doterel,a steam sloop carrying six guns, and probably about a hundred and fifty men, has been blown up in South American waters, and only eleven persons are reported to have been saved. The ship was under the command of Captain Richard Evans, who is one of the survivors; and the cause of the explosion which brought about this frightful catastrophe is at present entirely unknown. Even the precise number of those who have perished is left in uncertainty; but before long this fact at least may be expected to be ascertained with tolerable exactitude. In the 'Royal Navy List,' the Doterel is described as a 'composite steam sloop' of eleven hundred and twenty-four tons burden, and with engines of nine hundred horse power. Supposing that she was carrying only her ordinary complement of men, she would have had certainly not more than a hundred and twenty on board all told. It is feared, however, that owing to special causes the real number of seamen and others in the ill-fated craft was considerably above this figure, and will be found to amount more nearly to a hundred and fifty souls. The exceptional circumstances which may have led to the presence of an unusually large crew on board would arise from the character of the service on which the vessel happened, at the time of the lamentable accident, to be engaged. She was sent out from our shores to the Pacific Station, where she would have relieved the Penguin, as they are both vessels of the same class, with exactly the same tonnage, and generally employed in those latitudes. As this involves prolonged absence from England a greater number of hands might be expected to have sailed with her than would be the case if she had been simply despatched to the Mediterranean or some station nearer home. At the time of the catastrophe the Doterel seems to have been on a surveying expedition somewhere off the coast of Patagonia, and the explosion itself is telegraphed as having occurred in the Straits of Magellan, close to the extreme southernmost point of South America. How such an event could possibly have occurred remains, and will probably always remain, a mystery, unless the divers who have been sent down to explore the wreck are able to throw some light on the subject. The survivors, from the very nature of the case, can hardly be expected to know anything as to the cause of the disaster which suddenly overwhelmed the ship in which they were securely sailing. In all probability the first they experienced of the catastrophe was in the shape of a deafening explosion, which rent the solid decks, the bulwarks and the iron sheathing to fragments, and precipitated them and all their companions on shipboard into the air or into the waves. Most of the crew must have perished instantaneously; others would be drowned while struggling in the water,or while stunned by the terrific force of the explosion. A few only have lived to tell the tale of this deplorable accident, which robs the British Navy of so many stout sailors, and of a serviceable ship into the bargain.

Lord Northbrook may be counted upon to give all the explanations in his power with regard to the disaster, which is calculated to create a widespread feeling of uneasiness as to the safety of other ships of war under similar conditions. The loss is happily not so great as when the Captain went down in the Bay of Biscay with all hands, and five hundred individuals perished, or when the Eurydice foundered in sight of our own shores, or when the Atalanta disappeared, no one will ever know how; but it is grave and sad enough to warrant a searching investigation being held as to the manner of its occurrence. Many explanations will, of course, be hazarded to account for this misfortune. From what we know of the facts, the ship would appear to have been suddenly blown to pieces, and whatever remained of it would have sunk at once. This is the only way in which it seems possible to account for the loss of so many lives, unless, indeed, the explosion was of a more limited character, merely blowing a hole in the ship's hull and causing it to sink before the boats could be lowered, in which case the majority of the crew—far away from land or succour, as probably was the case—would have perished from drowning. At present facts point rather in the direction of a sudden and violent explosion, powerful enough to rive the solid timber and iron framework of the vessel, and to hurl the unhappy inmates unexpectedly into the air. Even as to the precise agency that brought about the catastrophe we are still in the dark. It is probable, however, that the disaster is traceable either to an explosion of the powder in the magazines of the sloop, or to the firedamp which accumulates more or less in all vessels which are obliged to carry with them a large supply of coals. This firedamp is quite as dangerous on board ship as in a coal-mine, and the slightest flame inadvertently brought near may lead to a calamitous explosion if proper precautions have not been taken to get rid of the gas by means of ventilating air-holes. The same cause—carelessness in bringing a lighted candle near or allowing some sparks to drop—may have led to the ignition of the gunpowder which the Doterel carried below decks. This, however, appears a somewhat less probable explanation of the event, owing to the great and sedulous care which is taken in the Royal Navy to protect the magazines from all possibility of mishap. Had the boilers themselves burst, the destruction wrought would not have been enough to account for the immediate sinking of the ship, and the death of nearly all on board. Further news as to the determining cause of so terrible a naval catastrophe will be expected with impatience, but if we have to depend only on the reports brought up by divers, and an examination by them of the sunken hull of the ship, we may still be left in doubt as to the real agent in this drama of death. The main appearance of the sunken wreckage will be much the same, whether the explosion proceeded from ignited powder or accumulations of fire-damp from coal.

Other instances have occurred in which vessels have been suddenly annihilated, and with every soul on board, by some such swift and terrible agency as must have been at work in this case. Good ships, with trusty captains and experienced crews, and bearing a valuable freight of human lives, have set sail from English ports and have never afterwards been heard of. The explanation of collision with icebergs is often brought forward to account for these mysterious disappearances, and too often such may be the real cause of the vessel's doom; but the same has happened in latitudes where icebergs are unknown, and then what theory is to be held except that the ship foundered in a tempest, or that such an explosion took place as did actually occur in the case of this ill-fated Doterel? Gunpowder, it is true, is not carried on most vessels, steamers or sailing ships, but a supply of coals is necessarily part of the cargo of all steamers bound on distant voyages. It will be noticed that the news of this latest naval misfortune—like ill-tidings generally—has travelled fast. It was on the 26th day of April that the catastrophe itself took place off Sandy Point in the Straits of Magellan, which is more than a thousand miles from Montevideo. On the 3rd of May—yesterday—the sad news is received by the Secretary to the Admiralty in London, telegraphed straight from Montevideo across the many thousand leagues of sea which separate the South American coasts from Great Britain. We even know that Lieutenant Stokes, one of the survivors, has remained at the scene of the catastrophe to aid in ascertaining the cause, if possible. It was only last December that this officer, with others who have not so fortunately escaped, received their commissions to sail on board the Doterel under Captain Evans. The ship itself was a new one, having been built at Chatham so late as the middle of last year, and in every way the loss of such a staunch and serviceable craft is matter of great regret. It is the valuable lives, however, that have been sacrificed which are of chief moment in endeavouring to estimate the extent of the disaster which has occurred. A single vessel, such as the Doterel steamship, can be replaced, but the loss of nearly 130 souls is a far graver and more mournfully important matter, and one which calls for and will receive at the hands of the Admiralty the most searching investigation.

THE B. A. JUNIOR ATHLETIC SPORTS AT PALERMO.

The eleventh competition meeting of this prosperous young club was held on Thursday the 26th inst., on the ground of the B. A. Cricket Club.

The day was as perfect a day as could have been desired; bright, clear, sufficiently cool to be exhilirating, and too cool for the comfort of spectators.

The ground was dry and smooth, so that all circumstances combined to a happy issue.

On arrival of the train at Palermo a military band was in attendance, and headed by this, the concourse of people immediately started for the course, and soon filled the grounds and grand stand.

The first object that met the eye was the exhibition of prizes to be presented to the successful competitors. They were closely scrutinized by the visitors, and very generally admired, and great credit is due to the Committee for the judgment shown in the selection, as it was evident they endeavoured to obtain articles which would be useful as well as ornamental. In addition to those purchased from the funds, we observed articles presented by Mr W. Woodhouse, Dewey and Co., Messrs. C. R. Simons, Mr George Cooper, Mr F Mattaldi, and by the honorary life members of the Society.

The grand stand presented a perfect galaxy of beauties, whose sparkling eyes gave a powerful stimulus to the competitors, and to whom the Committee's thanks are tendered for so kindly and gracefully presenting the prizes to the various successful competitors.

The twenty-three events on the programme were gone through in perfect order, the majority of which were well contested, and all affording a pleasurable excitement and now and then considerable amusement to the spectators.

The first event was:

1. High Jump Running. 3 competed.

Call for Tenders

FOR THE
City Improvement Works
OF
BUENOS AIRES.

The Improvement Works Commissioners, duly authorised by National Government decree of 28th December last, hereby calls for tenders to complete the Drainage and Water Works within the radius defined by the Law of the Province of Buenos Aires of 9th Sept. 1876, subject to the estimated cost sanctioned by the Law of November 8th 1878, on the following bases—

1st—Tenders must be presented, before the 30th July of this year, to the Secretary of the Commissioners, under seal, to be opened on the same day, in presence of those interested, or their representatives.

2nd—Each tender must be accompanied by a receipt from the Treasury or the National Bank for 50,000 hard dollars, as a guarantee of good faith, as provided by Art. 15 of the Public Works Act. A tender once accepted, the contractor, as provided by Art. 23 of the same Act must give a guarantee, satisfactory to the Commissioners, for 250,000 hard dollars, or deposit said amount in the National Bank in cash or National Bonds at the price of the day.

3rd—The contractors will be bound to take from the Commissioners all the cement and bricks for the works, at 20 hard dollars per thousand bricks and 32 hard dollars per 1016 kilogrammes of cement (equal to an English ton) the bricks to be delivered at the stations of the Northern Railway.

4th—The materials which the contractors may import for the works must be inspected before being accepted, by the Commissioners, engineer, without any remuneration to the contractors. The Commissioners will obtain entry free of Customs duty for all materials for the works.

5th—The works must be constructed on the same plans and conditions as laid down for the tenders called for in February 1873.

6th—The bidders must bind themselves to finish the works within 20 months, to count from the day on which they receive the orders to begin them, subject to the penalties laid down in the conditions before mentioned, in case of not completing the works within the time specified, or of there being any difference or defect in construction.

7th—The contractors must take over all the materials, implements etc. which the Commissioners bought from Mdsrs Newman, Medici & Co, on cancelling their contract, and at the price paid by the Commissioners. The inventory of these material etc can be had from the Commissioners Secretary.

8th—Those who intend to send in tenders can obtain every information from the Secretary.

9th—The contractors must send, at their own cost and time, an engineer to superintend the erection of the machinery and buildings, subject to the plans and models the Commissioners may select.

10th. The Contractors must guarantee the power and efficient working of the machinery for one year, and be responsible for any breakage caused by bad workmanship or materials, this responsibility to cease when the broken part is repaired with material of good quality and put in its place.

11th—Separate bids can be presented for the construction and erection of the machinery, as well as for the other works.

12th—The Commissioners reserve the right of accepting the tender they consider best for the public interests, and rejecting them all if they see fit so to do.

B. Ayres, Feb. 23 1881.

AVISO OFICIAL

Ministerio del Interior

LICITAOION

En la secretaria del Ministerio del Interior se recibiran propuestas para la provision de 150,000 (ciento cincuenta mil traviesas) madera dura para la prolongacion del Ferro Carril Central del Norte, con arreglo a lo dispuesto en el articulo 2° de la ley de obras Publicas y las siguientes bases—

1—Las propuestas se presentaran en pliego cerrado con la firma del proponente o proponentes y seran acompañadas de un documento en que conste haber efectuado el deposito en el Banco Nacional de mil doscientos fuertes (1,200$f.) en fondos publicos nacionales de acuerdo a lo que dispone la ley de obras publicas y lo ordenado por el Ministerio de Hacienda.

2—Las propuestas se entregaran al Escribano Mayor del Gobierno Nacional en la Capital de la Republica hasta el dia 22 de Mayo de 1881 a las 3 p.m., dia y hora en que seran abiertas en presencia de los interesados que quieran asistir al acto.

3—Todas las traviesas seran de madera dura (quebracho o urundey) bien rectas de seccion rolangular, cortados a sierra por lo menos las caras de asiento y pudiendo las otras ser labradas a azuela con tal de que sean planas.

4—Las dimensiones tipicas de las traviesas seran: un metro ochenta centimétros (1 m. 80) de largo, veinticuatro centimétros (0 m. 24) de ancho y doce centimetros (0m. 12) de espesor.

5—Se admitira una tolerancia de (0m 05) cinco centimetros en el largo, (0m 02) dos centimetros en el ancho y (0m 01) un centimetro en el espesor, asi como las que presenten una curvatura cuya flecha medida normalmente a una cualquiera de las caras laterales no esceda de (0m 06) seis centimetros. Es entendido que las medidas seran tomadas libre de samago o albura y que la seccion de la traviesa debe ser toda del corazon o leño.

6—La tolerancia a que se refiere el articulo precedente solo sera aplicable a un numero de traviesas que no esceda del 20 o/o en cada entrega, es decir que el 80 o/o deberan ser de las dimensiones tipicas que se establecen en el articulo 4.

7—Las traviesas seran entregadas por el empresario sobre la linea en construccion, segun la traza denominada del Oeste que ha sido aprobada por el Gobierno y en los puntos siguientes—

1—5000	traviesas en la estacion Tucuman.	
2—15000	sobre la linea en construccion y en el kilometro 5 saliendo de Tucuman.	
3—20,000	en el kilometro	15.
4—20,000	id	30.
5—20,000	id	45.
6—20,000	id	60.
7—20,000	id	75.
8—30,000	id	95.

En estos puntos se verificara la clasificacion y recibo de las traviesas que se hallen dentro de las condiciones de recibo, por el empleado o empleados que se designen al efecto.

8—Los puntos o parages en que se efectue la entrega, podran alterarse en caso que fuere conveniente a la rapida ejecucion de las obras siempre que esto no implique un perjuicio al proponente a quien se adjudique la licitacion que asi lo resuelva el Director de los trabajos. En el caso que la no ificacion o variacion del parage en que se efectue el recibo sea solicitado por el adjudicatario, debe este hacer una rebaja equivalent a la economia que obtenga en los trasportes.

Es estendido que el recibo se debera efectuar sobre la linea en construccion y en la zona que ocupe el camino.

9—Seran de cuenta del empresario todos los gastos que origine el trasporte y entrega de las traviesas en los puntos que se indican en estas condiciones.

10—Toda traviesa que presente rajadura, nudos inconvenientes o signos de putrefaccion, o que no este en las condiciones determinadas en el contrato con arreglo a estas bases, sera rechazada sin accion a reclamo alguno.

11—Toda traviesa rechazada se sacara inmediatamente de la zona de la linea en construccion y por los menos hasta una distancia de un kilometro de esta zona y en el caso de no verificarlo dentro de las veinticuatro horas siguientes a la en que tuvo lugar el rechazo, el encargado de la clasificacion y recibo, tendra el derecho de hacerlas sacar por cuenta del empresario o de inutilizarlas de modo que no sea posible su empleo en la via.

12—Las traviesas que tengan dimension mayores que las indicadas en la base 4ª, pero que satisfagan a las demas prescripciones de estas bases, podran admitirse al mismo precio que las de contrato, siempre que tengan aplicacion conveniente a juicio del director de las obras de prolongacion.

13—Las traviesas se entregan en un numero que no baje de veinte mil por mes, debiendo verificarse la primera entrega dentro de los sesenta dias de la fecha en que se apruebe y reduzca a escritura publica el contrato respectivo.

14—El pago se verificara por el director de las obras de prolongacion en la ciudad de Tucuman mensualmente y de conformidad con el certificado que espidan los empleados encargados de la recepcion al fin de cada mes y con el visto bueno del inspector.

15—Las entregas deberan verificarse en la forma prescrita en la base 7ª es decir, que lo que corresponde a los incisos 1° y 2° de esta base debe ser entregado dentro de los sesenta dias de que se apruebe el contrato y los subsiguientes mensualmente; no admitiendose que se efectue la entrega por lotes saltcados, sino en el orden progesivo que se indica.

16—Si el empresario no entrega mensualmente el numero de traviesas dijado como minimo, abonara por cada traviesa que falta y por cada dia de retardo, una multa de uno por mil del valor de cada una, segun contrato.

17. En la prepuesta se debera indicar el precio de cada traviesa en moneda de curso legal (billete fuerte del Banco de la Provincia de Buenos Aires) en cuya maneda se verificaran los pagos.

18. El proponente a quien se le adjudique la licitacion debera hacer estensivo el deposito en fondos publicos en el Banco Nacional hasta la cantidad del cinco por ciento del importe del contrato, los que quedaran en garantia de su cumplimiento y que no tendra derecho a retirar hasta haber cumplido con las obligaciones que impone por contrato.

19. En el caso que por falta del empresario no se diera estricto cumplimiento a lo estipulado en el contrato, el Gobierno tendra derecho o disponer del deposito a que se refiere la base precedente, asi como del diez por ciento que se debe retener en cada paga, con arreglo a lo que prescribe la ley de obras publicas, para indemnizarse de los perjuicios que esta falta le origine, todo esto fuera de la multa que se debe imponer segun la base 14.

20. Todas las propuestas deberan presentarse de conformidad con estas bases y no se tomara en consideracion la que no lo estuviere.

21, No se admitira esplicacion alguna, verbal o escrita, una vez que se halla dado principio a la abertura de los pliegos cerrados que contengan las propuestas.

Bs. Aires, Abril 21 de 1881.

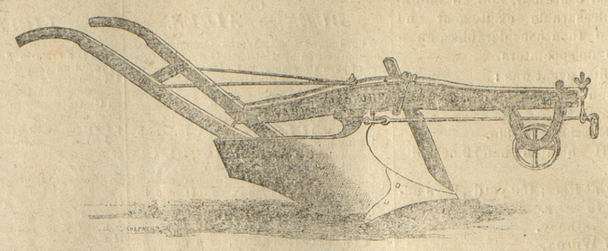
HOWARD'S IMPROVED AMERICAN PLOUGHS.



The above represents the well known 'Eagle 75' Plough which, and other sizes, are manufactured by J. & F. HOWARD in the highest style of workmanship, and tens of thousands are in use. Several manifest improvements have been introduced. As shown in the engraving, the body clips the beam, and the 'centre draught' is also taken from the strongest part of the iron body,—thus giving an additional security against the beam breaking at the bolt holes—a very common occurrence with American made Ploughs.

The beam is made of Oak, and can if required be fitted with a steel plate on each side.

The shares are hardened upon J. & F. HOWARD'S well known patented *water-chill* process, which renders them not only tough and hard, but ensures their wearing better and longer than made when by any other process.

Prices of the various sizes, Nos. 19, 19½, 25, 26, 55, 75, &c., sent on application.

The above Implements kept in Stock by the Principal Hardware Merchants.

Carlow Lay College
AND
ST. MARY'S PREPARATORY SCHOOL
Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stoneyhurst in the number of her students who are graduates and undergraduates of the London University. An Examiner from the University of London holds Examinations in Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes.

The College is healthfully situated in a park of six acres, which forms extensive recreation grounds for the students.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, 30 guineas.

St. Mary's Preparatory School

In connection with Carlow Lay College, the Preparatory School of St. Mary's, for Children from eight to twelve years of age, has been re-opened.

Rector—Rev. William P Bourke.

Matron and Professor of French and Music—Miss Finneran.

English Master—Mr P Harnett.

The School is strictly and purposely limited to children of such age, in order that they may be totally separated from the grown boys, and may have all the advantages of minute attention which their tender years require.

The children at St. Mary's are under the special care of the matron, and the rector takes charge of their religious instruction.

TERMS:

Pension, including all extras, 35 guineas per annum.

Pension, exclusive of extras, £30.

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.
Dr. J. COLLIS BROWNE'S
(Ex Army Medical Staff)
CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. 'Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, later eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collis Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. 'So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
